

Testimony of Pat Hodges Sweet, Clear Voice

Sitting in church one day in the fall of 2019, Brother Glen Dunlap sang the special music, "It is Well with My Soul." He sang it acapella. The church was very quiet. The first line of the refrain is, "It is well with my soul." After he sang the first line, there was a voice singing an echo, "It is well with my soul." It was a clear, sweet voice. I thought, "Could it be an angel?" I wanted to hear more for reassurance. I listened intently for the next refrain and again, and again, I heard the sweet clear echo, "It is well with my soul." I sat shaken trying to take it in. There were four verses and four refrains, each refrain with the sweet echo. I have always believed in angels. The experience has increased my faith in life and the hereafter. I am very blessed and thankful for this experience. I hope it will be a blessing in your life, also.
